

California OES Weather Threat Briefing

Tuesday, July 28, 2020
9:00 AM PDT

- **Day 1 (Tuesday):** Low to locally moderate heat impacts across Inland and Southern areas today. Isolated thunderstorms possible this afternoon and evening across far northern California. Heat impacts increasing through mid and late week, especially across Southern areas.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

07/28/20 - 08/03/20

Tuesday-Wednesday

- Fairly quiet weather expected today and Wednesday across the state
- Isolated thunderstorms expected this afternoon and evening and again Wednesday afternoon over far northern California
 - Localized gusty winds possible with any storms
 - A few new fire starts are possible with dry lightning
- Elevated fire weather conditions due to dryness and terrain impacts on wind speeds, especially across northern Inland areas

Thursday-Monday

- High Heat Risk expected over southern CA Thursday through Sunday. Excessive Heat Warnings in effect for some areas.
- Localized elevated fire weather conditions Thursday through Saturday due to dryness, hot temperatures, and stronger winds, particularly across Southern regions
